

~1.

The Legend of the Light Wizzard began on a Mountain top,
in a period of Time that yew might at first have a hard time grasping,

~2.

but if you Close your Eyes...

~3.

and Open your Mind...

~4.

you can imagine that this world will come to an end,
and all life as yew know it,
will cease to exist,

~5.

this can happen due to many Catastrophes,
but it will happen one day,

~6.

and then this Galaxy and this solar system will renew itself,

~7.

and all the planets in it will be renewed,

~8.

and all life as yew knew it,
will be renewed,

~9.

and each renewal is called an Iteration,
and this HisStory takes place, on one of those days,
in one of those Iterations,

~10.

Three Wise Men gathered -

~11.

in preparation for the long climb to the top of this Mountain,

~12.

where they were to met with 3 Wizzards.

~13.

The three Wise Men have prepared a test for the Wizzards,
and the 3 agreed that if the 3 Wizzards could pass the test,
that they would become the Wizzards students.

~14.

The three Wise Men climbed the Mountain,

~15.

and found a Cave,

~16.

where they were greeted by three Wizzards,

~17.

who invited them into their cave.

~18.

One of the three Wise Men made a Proposition to the Wizzards,

~19.

We have three stacks of Gold Coins,

~20.

one stack belongs to each of us,
each has 10 Gold coins,

~21.

we will give you the three stacks of Gold Coins as payment for teaching us
about the Universe,

~22.

if you can figure out the problem we will set up for you first.

~23.

The Wizzards agreed;

~24.

so the the Wise Men pushed the 3 stacks with 10 Gold Coins in each,
for a total of 30 Gold Coins,

$3 \times 10 = 30$,

to the center of the table they were sitting on,

~25.

then asked one of the Wizzards to remove 5 of the Gold Coins and fairly divide the Coins, as a Discount.

~26.

One of the Wizzards reached down and collected the 5 coins, and set 3 of them in front of the Wise Men, and two in front of himself, and said to them,

~27.

for this service I will take 2 of the coins as payment.

~28.

The three Wise Men looked at each other,

~29.

then one of them said,

~30.

as payment, we have each paid 9 Gold Coins each,

~31.

$3 \times 9 = 27,$

~32.

plus the 2 coins you took as a service fee, would total as $27 + 2 = 29,$

~33.

so what happened to the missing coin?

~34.

Then the Wise Man looked pleased with this problem, as they waited for a reply.

~35.

But Without hesitation,

~36.

one of the Wizzards pointed between the two coins,

~37.

and said the missing coin is here.

~38.
Then Wise Men said, that is not the answer;

~39.
there is no coin where you pointed,

~40.
and you did not solve this problem.

~41.
The Wizzards looked at the Wise Men,

~42.
and said the only problem yew have is seeing the truth,

~43.
your problem is not about the math,

~44.
although its correct it has nothing to do with the problem,

~45.
the problem is how yew tell the story,

~46.
and to Tell a Story,
one must use their Imagination to Tell it,

~47.
and those that listen,

~48.
must use their imagination to understand it;

~49.
it seems yew have failed this test,

~50.
not I.

~51.
The Wise Men sure that they are right demanded that they solve this
problem to their satisfaction.

~52.

The Wizzard said very well,

~53.

stare at the two coins,

~54.

then he sat a Black triangle in between them,
such that the tip was point away from the missing coin,

~55.

then he sat a white triangle in between them at a different angle,
such that the tip pointed at the missing coin,

~56.

after several minutes had passed,

~57.

the Wizzard told them to close their eyes and they will see the coin.

~58.

So the Wise Men did,

~59.

and much to their surprise the coin was there,

~60.

then they said in protest,

~61.

this is an illusion,

~62.

the image faded away,

~63.

the coin is not really there.

~64.

The Wizzard replied,

~65.

did yew 3 see the Coin in your mind?

~66.

All the Wise Men agreed that they saw the coin.

~67.

Then the coin exist, said the Wizzard.

~68.

The Wise Men protested again,

~69.

this is a trick,

~70.

we can not pick up the coin,

~71.

therefore it does not exist.

~72.

The Wizzard relied,

~73.

Repeat the process of staring at the coins,

~74.

then close your eyes,

~75.

but this time change the color of the coins from Gold to White,

~76.

and hold on to that image as if it was real,

~77.

in your mind make it real,

~78.

know its real when you open your eyes,

~79.

and you will be able to pick up the coin,

~80.

this takes much practice for most people,

~81.
and some can never achieve,

~82.
because they can not let go of the Darkness,

~83.
so they can let the Light in,

~84.
so with each breath,

~85.
you must let go of the Darkness,

~86.
Come into the Light.
This point is a hard one to convey,
I was born into the Light,
like most people,
so you understand what it is,
you were just taught that this is not real,
but for me and others like me,
I stayed in the Light,
and it was the Darkness that was hard to see,
but once I saw it,
it scared me,
it was at that point I understood fear,
I then knew what others have been dealing with;
and for the Darkside to go back into the Light,
will require you to let go of everything that is Dark,
all your Dark thoughts and Ideas;
but first let go of the Fear.

~90.
and let the Light come into your mind,

~91.
see the coins turn White,

~92.
then see them turn to Light,

~93.
hold on to that Light,

~94.
then when you open your eyes you will see the coins again,

~95.
only this time,
it will not fade away.

~96.
Two of the Wise Men stare at the table in awe,

~97.
and poke their finger at the missing coin,

~98.
and one Wise Man said,

~99.
I can feel it,

~100.
its so bright,

~101.
but I can not pick it up.

~102.
The other Wise Man commented,

~103.
it looks white,
but not very bright to me.

~104.
The third Wise Man said,

~105.
all I see is a shiny Black coin,

~106.
but why can I not pick it up?

~107.
The Wizzard said to them,

~108.
yew can not create,

~109.
nor destroy Energy,

~110.
and Light is Energy;

~111.
the Light Wizzard can make the coin by binding the Trinary Molecules in the shape and size of the coin,

~112.
and you called upon them to do just that,
and they did.

~113.
One of you has a White Soul,

~114.
so you saw the coin as Light,

~115.
one saw it as White,

~116.
because they have a Gray Soul,

~117.
and one saw it as Black,

~118.
because yew have a Black Soul.

~119.
By teaching the 3 Wise Men how to see with their eyes closed,
you are teaching the Blind to see,
this is how the 3 Wise Men because the 3 Wiz Men.
